

Python Test

Instructions for Students

- **Time allotted:** 10 Minutes per Question
- **Marks:** 10 Marks each
- Write a complete Python program for the given problem statement.
- Apply **Exception Handling** wherever required.
- Use **Functions** to improve code readability.
- Follow proper coding practices.

Assessment Criteria (10 Marks)

- Logic and Problem Solving – **4 Marks**
- Correct Use of Required Python Concepts – **3 Marks**
- Code Execution and Output – **2 Marks**
- Code Readability and Exception Handling – **1 Mark**

Total Students: 25

Time per Student: 10 Minutes

Core Python Coding Challenge

Student Name	Question
AARISH SAIFI	Write a program to accept 10 numbers from the user, store them in a list , and display the even numbers using a for loop . Handle invalid inputs using exception handling .
ABHISHEK PANDEY	Create a function that accepts a string and returns the count of vowels and consonants using iteration statements.
ANANNYA DAS	Write a program to store student names in a tuple and search for a given name using selection statements . Display an appropriate message if the name is not found.
ANSH SHARMA	Develop a program to read employee details from a file and display employees whose salary is greater than ₹30,000 using if statements .
DEEPANSHU	Write a program to input 8 numbers into a list , convert them into a set , and display the unique elements in ascending order.
HARSH CHOUDHARY	Create a dictionary containing product names and prices. Allow the user to search for a product and display its price using exception handling if the product does not exist.
JANAHAVI JHA	Write a function to check whether a given string is a palindrome using a while loop .
KANHAIYA GARG	Create a menu-driven program using selection statements to perform CRUD operations using file handling on student records.

KANISHKA JAIN	Write a program to count the frequency of each character in a given string and store the result in a dictionary .
MANYA SRIVASTAVA	Accept 10 integers from the user and separate them into two different lists containing even and odd numbers using a for loop .
MD ISTIKAMAT ALI	Create a function that accepts a sentence and returns the longest word present in the string.
NANDANI KHATRI	Write a program to perform division of two numbers entered by the user and handle ZeroDivisionError and ValueError exceptions.
PRADEEP KUMAR	Store city names in a tuple and display them using a while loop without converting the tuple into a list.
PRATYUSH SHAH	Create two sets containing roll numbers of students participating in different events. Display students who participated in both events and those who participated in either event .
PRITAM MANDAL	Develop a function to count the number of uppercase letters, lowercase letters, digits, and special characters in a given string .
RAXIT TRIPATHI	Write a program to maintain a dictionary of student marks. Allow the user to add, update, and delete records using selection statements .
SAMEER SINGH	Create a program to copy the contents of one file into another file and display the total number of lines copied.
SARTHAK SINGH	Write a program to input 10 numbers into a list and find the second largest element using iteration statements.
TANNU BANSAL	Create a function that checks whether a number is prime using a for loop and returns the result.
TUSHAR RAJPUT	Develop a program to store employee details in a dictionary , display all records, and search for an employee using the employee ID.
VANSH YADAV	Write a program to read a text file and count the total number of words, lines, and characters present in the file.
VIKHYAT SHARMA	Create a menu-driven application using functions to perform operations on a list such as insert, delete, search, and display.
VYOM SINGHAL	Write a program to accept names from the user until they enter "STOP" using a while loop , store them in a list , and display them in alphabetical order.
YUVRAJ SINGH	Develop a Library Management System (Mini Version) using dictionary, functions, file handling, selection statements, and exception handling to issue and return books.
